

# Brainstorm 15 Things Your Character Could Possibly Say

Use this template to help you brainstorm 15 possible lines of dialogue your character could say in response to another. In real life, we often do not know what to say in the moment but later wish we had said something more intelligent, witty, or challenging. Do not always go with your first idea. Usually the better ideas come later, after your creative mind has had time to turn things around and 'play.'
